We have a lot to celebrate! Many of you have seen the changes in the amenities area. Fresh paint has made a big difference. The lower courts are beginning to take shape. The upper courts will be resurfaced once the lower courts are completed. The pool deck will be repaired and resealed with a non-skid surface next week, allowing us to open the pool on May 3rd.

There is another change that is not so obvious. Effective May 15th, we will begin using the services of Association Management Advisory Group, Inc. (AMAG) as our property manager rather than Heritage Property Management Services, Inc. After interviewing four management companies, we chose AMAG because of their willingness to roll up their sleeves and work with us to continue to improve our community. We also received several good recommendations from Home Owner Associations who use the services of AMAG and highly recommended them. You will receive more information on the transition in early May. We will also be featuring AMAG in our newsletter. Leisa Ballew and Laurie McClain from AMAG will be our guests at the party. We hope you will all take some time to meet them and welcome them to the Avocet family!

We are also adding wireless internet access at the pool, clubhouse and upper tennis courts. Golivewirelessneighborhoods.com provides free Wi-Fi to many communities in Gwinnett County. A representative will be attending the party as well to show you how to use this service.

Please let us know you are going to join us so we can ensure we provide enough food and drink for everyone! When you RSVP, please tell us what side or dessert you are bringing, if any. We look forward to another great party like we had last year!
